Sound planning is essential for superior safety management. However, in practice, things don't always go as planned. Breakdowns or unforeseen incidents can result in bottlenecks or demand peaks which can require special equipment for specific operations.

With Dräger Rental Service you are prepared to deal with every situation. More than 125,000 rental equipment items are available worldwide.

This catalogue is your tool to learn about our extensive rental equipment portfolio. In line with our motto, Dräger Services – more than you expect, we present our entire range of safety-related products on 174 pages, in clear and concise form – by Dräger and other renowned manufacturers.

You will also find our entire range of products and services online at www.rentalshop.draeger.com. And if you already know exactly what you need, you can use our convenient booking tool to place your order right there.

Do you still have questions? Please don't hesitate to contact us at any time! Our experts look forward to providing you with customised advice.

DIRK EICHLER
HEAD OF RENTAL SERVICE
DRÄGER RENTAL & SAFETY SERVICES

Safety technology for rent – a lean business model with a bright future

Whether it's a car, a bicycle or a gas detector: Our everyday tools are most useful when they're on hand exactly when and where you need them. On the other hand, owning them can sometimes become a burden.

That is why, in addition to consumer goods markets, the sharing economy is becoming an increasingly popular concept in the industrial sector. Dirk Eichler, Head of Rental Service, Dräger Rental and Safety Services, about the smart aspects of the rental concept.

For over ten years, Dräger has also been renting out its portfolio of safety technology. What is it that makes renting rather than buying a smart idea?

Dirk Eichler: As the saying goes, "ownership comes with responsibility". This truth also applies when purchasing safety equipment. Gas detectors, for example, must be carefully maintained, calibrated and tested before or after every use. That ties up resources and requires advance planning. For these reasons and more, our customers can rely on our rental equipment to be ready to use and fully functional, and most importantly, have it delivered on short notice. It is similar to car sharing, which is becoming increasingly popular. In this case, subscribers pay a basic amount plus a usage-based fee and therefore do not have to invest a great deal of time and expense in purchasing, repairs, taxes and insurance coverage.

Car sharing models benefit from high location density, so that no matter where the customer happens to be, ideally, there is always a car nearby. Are international industrial companies always able to access the Dräger rental equipment portfolio, from any of their sites?

Dirk Eichler: Of course. Our rental equipment portfolio currently includes 1,500 different products. That amounts to around 125,000 rental equipment items, distributed across 18 warehouses worldwide. Products are shipped from there. Whether gas detectors, respirators or ATEX-approved radio units – we have just about everything in the area of safety technology required to cover demand peaks, for maintenance projects or shutdowns.

You make a point of particularly emphasising the topic of short-term nature, e.g. when demand peaks occur. What lead times must be considered when placing an order?

Dirk Eichler: Of course that depends on when and where the equipment is needed and how many items are to be deployed. Frequent orders can be delivered within one to two business days.

How is it that you manage to keep track of the myriad variety of equipment?

Dirk Eichler: We work with IT-supported fleet management systems. We use a web tool, bar codes and bar code scanners that enable us to directly read, process and document equipment information. Depending on the type of contract they have, our customers can also make use of these software solutions.

Some customers may need a smaller-scale solution, as it involves only single-use requirements or because they have their own measurement and control technology department. Others require a larger scope. What are the options here?

Dirk Eichler: That is precisely why we have structured our Dräger Rental Service to offer three service levels: Basic, Advanced and Professional. They comprise different service packages with respect to free delivery, pick-up service, maintenance, repairs on-site or in our workshops and much more. We are happy to provide you with advice in selecting the most appropriate package.

Honestly: Isn't it a disadvantage for Dräger if customers choose to rent rather than buy?

Dirk Eichler: From our perspective, rental and purchase are not mutually exclusive – quite the contrary, they are perfectly complementary. After all, there are customers for whom buying is absolutely not worthwhile.

Dirk Eichler
Head of Rental Service, Dräger Rental and Safety Services

Renting or buying – when does one or the other pay?

Dirk Eichler: I can't give you a simple, blanket answer to that question, since the needs of our customers are extremely individual. In general, however, you could say that in the event of great uncertainty regarding actual requirements, a rental solution constitutes an attractive alternative to purchasing. Since the rental contract can be extended at any time, it provides for increased flexibility. On the other hand, an investment in your own equipment usually takes longer to amend. Moreover, rental is frequently a better choice if the need for safety equipment is only temporary. In this case, purchasing your own equipment would not make economic sense.

D-30482-2017

Safety without compromise – on lean terms

When your situation gets tight, you can look forward to a broad range of products and services with us. With more than 125,000 rental equipment items, Dräger Rental Service ensures that you are perfectly equipped to take on any deployment.

MAXIMUM EFFICIENCY, MAXIMUM FLEXIBILITY

No matter whether you require one item or a thousand, whether you want to bridge a short-term bottleneck or have a longer-term need for special equipment. Dräger Rental Service works with you to come up with individual customised solutions.

You have a choice of three different packages with tiered scopes of service. The same applies for every package: You pay only for the time in which you actually need the equipment.

Rental Basic

Cost-effective and simple: We configure the safety technology for individual customer needs and deliver it ready-to-use, free of charge.

Rental Advanced

Convenient package with extensive service features. We supply the equipment and assume all maintenance, calibration, and repair work at a Dräger workshop during the entire term of the contract. For the administration of large pools of equipment, you have the option of using the Rental web tool.

Rental Professional

Full-service rental package with 360 degree service. We supply all requested equipment to your facility, ready-to-use. All necessary maintenance, calibration and repair work is performed on-site at your company. So you can fully focus on your core business.

You can rely on it:
We will find the safest solution

Especially when things get tricky, you can count on our cross-industry experience. At Dräger Rental Service, you are advised by competent experts who are familiar with and understand all the demands of your job.

Dräger Rental Service is certified according to DIN ISO 9001/DIN ISO 14001 as well as SCC/VCA (Safety Certificate Contractors).

Fast, easy and convenient
And no matter what you order: It is delivered to you ready-to-use. And even for the return and management of rental equipment, your effort and expenditure are kept to a minimum. All you have to do is place your order with your Dräger representative or online at http://www.rentalshop.draeger.com

SAFETY IS A MATTER OF TRUST
When you rent from Dräger, you get quality: high-grade safety equipment that complies with international standards and is continually tested and maintained. You can also trust our services. Working together, we quickly find the products or equipment configurations that comply with your precise requirements.

To ensure that equipment replacement and maintenance procedures function smoothly, we use state-of-the-art logistics software. You rent at a fair fixed price that is determined by the rental term. Reliable and transparent.

Electric Ventilator Ex

Rental Star

Do you need aeration and ventilation?

Description:	In addition to gas detection technologies for detecting concentrations inside confined spaces, storage tanks, processing columns or reactors, Dräger also offers aeration and ventilation systems for purifying the atmosphere of toxic gases and fumes.
	We provide standard-performance ventilation systems as well as high-performance systems that can be used for high-speed aeration and ventilation tasks.
	Electric ventilators can be used independently from compressed-air systems.

All-In-One-Package Fall Arrest

Working at height

Description: For any tasks that involve a risk of falling, the appropriate safety equipment must be provided and used.

Properly selected safety equipment either fully prevents falls or safely stopps the fall.

This equipment limits the fall path and considerably reduces the force of impacts on the body.

Rental No.:   KIT 18

Scope of delivery

All-In-One-Package consisting of:	Rental No.

BREATHING AIR SUPPLY

Do you have to safeguard your employees from inhaling toxic gases, vapours or dust particles? The rule is: as much protection as necessary, as little physical strain as possible. Your employees should be able to work safely and with as little discomfort as possible. The appropriate solution for all application scenarios is available in our portfolio. Whether these are masks that are used once or repeatedly with filters, self-contained breathing air supply – decentralised or centralised –, powered air purifying respirators or escape masks: Tell us what your job is and we will deliver the right product.

Half Masks – Multiple Use

Dräger X-plore® 3500, Size M

Description:
– Double-filter half masks
– Lateral bayonet connectors
– Mask body made from DrägerFlex material
– FlexiFit head harness
– Drop-down strap system with neck clips
– Carry pouch
– EN 140

Rental No.:	SRM04988
Order No.:	R55350

ST-14767-2008

Dräger X-plore® 4740, Silicone, Size M/L

Description:
– Single-filter half masks
– Protection against gases, fumes and particles
– Drop-down strap system with neck clips
– Replaceable screw-on filters
– Round-threaded connector (Rd40 as per EN 148-1)
– EN 140

Rental No.:	SRM04447

GAS DETECTION TECHNOLOGY

Dräger gas detection technology is made for almost every application purpose – robust, precise and easy to operate. Area monitoring systems are particularly suitable for maintenance projects in which operating sites change frequently. Combined to form an alarm chain, they help monitor large scale areas. Worn close to the body, personal portable gas detectors are there at every turn and immediately warn your employees of toxic gases, explosion hazards and oxygen deficiency.

Portable Multi-Gas Detection Devices

Dräger X-am® 2500 Ex, O$_2$, CO, H$_2$S-LC

Durable one- to four-gas detection device with very short response time

Description:	– 1- to 4-gas detection device with Dräger XXS sensor technology – Equipped with catalytic Ex and three electrochemical sensors – Monitors flammable gases and fumes – Alarm thresholds adjustable to various national standards – Event and data logger
Note:	Battery included. For use, please also order the necessary accessories, such as charger. Use the Dräger testing and calibration stations as well as the necessary gases to conduct the required function tests before each use.

Dräger X-am® 5000

Lightweight, versatile one- to five-gas detection device for all explosive gases

Description:	– 1- to 5-gas detection device with Dräger XXS sensor technology
	– Equipped with catalytic Ex and three electrochemical sensors, replaceable
	– Simultaneous detection of five gases only possible with CO/H$_2$S double sensor
	– Monitors oxygen, flammable gases and fumes
	– Alarm thresholds adjustable to various national standards
	– Event and data logger
Note:	Battery included. For use, please also order the necessary accessories, such as DrägerSensors and charger. Use the Dräger testing and calibration stations as well as the necessary gases to conduct the required function tests before each use.

CHEMICAL PROTECTIVE SUITS

Chemical protective suits come in many versions. Choosing the right one depends on your specific work duties. Are you planning clearance measurements, transferring substances (e.g., filling, decanting and draining containers), or service and maintenance work? Do you need to perform cleaning operations or simply be prepared for emergency operational readiness? We are happy to advise you in selecting the appropriate product.

Chemical Protective Suits

Dräger CPS 5800 L

Description:	– Limited-use protective suit for operations that involve a gaseous, liquid or solid hazardous substance – Diagonal zipper – Pressure relief valve at chest level – Use with compressed air breathing apparatus, external powered air-puryfing respirators or compressed air hose device – EN 943-1:2002, EN 943-2:2002 (ET) and SOLAS II-2, Reg. 19
Note:	For use, please order the necessary respiratory protective gear separately.
Rental No.:	SRM06592
Order No.:	R57788

D-22672-2009

Dräger CPS 5800 XL

Description:	– Limited-use protective suit for operations that involve a gaseous, liquid or solid hazardous substance – Diagonal zipper – Pressure relief valve at chest height – Use with compressed air breathing apparatus, external powered air-puryfing respirators or compressed air hose device – EN 943-1:2002, EN 943-2:2002 (ET) and SOLAS II-2, Reg. 19
Note:	For use, please order the necessary respiratory protective gear separately.

Rollgliss, 90 m (Capital Safety)

Description:	– Quick, secure setup
	– Vertical descending
	– Pulley principle
	– Ratio 3:1
	– Guide rolls and cable stop
Rental No.:	SRM04088

STL-15386-2008

Rollgliss, 200 m (Capital Safety)

Description:	– Quick, secure setup
	– Vertical descending
	– Pulley principle
	– Ratio 3:1
	– Guide rolls and cable stop
Rental No.:	SRM05069

STL-15386-2008

Tripod Advanced (Capital Safety)

Rental Star

Description:	– 3 m aluminium tripod
	– Adjustable telescopic lock system
	– Integrated guide rolls system
	– Rubber safety shoes with edge dressing
	– Leg safety chain
Rental No.:	SRM10627

D-417-2017

Tripod (MAS)

Description:	– With retractable feet for use on hard or soft ground
	– Lightweight aluminium design
	– Anti-corrosion coating
	– Height-adjustable
	– Telescopic legs
	– DIN EN 795, Class B
	– Choice of harness or fall arrester
Rental No.:	SRM05054

Horizontal Boom – Side Access (Bornack)

Description:	– For rescuing/accessing from horizontal inlets/outlets
	– Winch boom and wall console
	– Approved for simultaneous use by two persons
	– Without safety winch and rescue slide
Rental No.:	SRM05931

Extreme Jib PM 3500 (Bornack)

Description:	– For rescuing from difficult-to-access areas at a distance of up to 3.5 m
	– Variable positioning of safety winches
	– Easy storage, transport and assembly
	– Telescopic jib with deflector rollers
	– Fast change plate for passenger winch
	– Pedestal
Rental No.:	SRM04032

Side Entry System (Capital Safety)

Description:	– Access to and rescue from confined spaces
	– Rescue operations with horizontal access
	– Includes flexible orientation options, plus fully extendable arm system
Rental No.:	SRM11609

D-406-2017

Tank Platform Supports (Bornack)

Description:	– Safety device for side entry into containers, etc.
	– For positioning alongside columns or tanks
	– Movable attachment construction for securing and rescuing persons
Rental No.:	SRM03760

STL-15392-2008

Rescue Slide (Bornack)

Description:	– For rescuing from vertical exit points
	– Combinable with fall arresting systems
	– Slide in aluminium
	– Size one for manholes 500/600 mm
	– Mounting clamps for mounting the slide on the flange ring
Rental No.:	SRM03759

STL-15260-2008

Rope Ladder, 10 m (Bornack)

Description:	– Rope rungs for easier entry
	– Break resistant above 15 kN
	– Load capacity of up to three persons
	– Free rope loops above and below
	– Extension with karabiners possible
Rental No.:	SRM03926

Rescue Ladder System, 2.5 m (Capital Safety)

Description:	– Polyester web rope ladder
	– Reinforced rope rungs
	– Karabiner included in module
	– Extendable up to 10 m
Rental No.:	SRM10723

Trapeze for Rope Ladder (Capital Safety)

Description:	– Main component: alloy steel, rust-proof
	– Apparatus for enabling a single fixing point for the rope ladder
Rental No.:	SRM10724

Safety Rope, 30 m

Description:	– For rescuing persons, self-rescue and personal safety
	– Storage in linen bag
	– Four-strand polyamide rope
	– Optionally with karabiners
	– DIN 14920
Rental No.:	SRM04090

STL-15253-2008

Multipurpose Rope, 20 m

Description:	– Made from patented nylon
	– Endless spiral braid
	– With loop and wooden handle
	– Approx. 10 mm × 20 m
Rental No.:	SRM10370

D-580-2014

Basket Stretcher (MAS)

Description:	– Rescue and transport of patients
	– Use with rope winches possible
	– Dimensions: L × W × H: 2,170 × 620 × 185 mm
Rental No.:	SRM04669

STL-15354-2008

Rescue Stretcher SKED, Orange

Description:	– Rescue stretcher for confined spaces, high angle or technical rescue
	– Protection for the patient
	– Mobility in the hip region enables horizontal rescue
	– Steel karabiners, plus carry handles
Rental No.:	SRM08056

D-584-2014

Harnesses

Harness 30 (MAS)

Description:	– Catch eyelets in front and back
	– Height adjustment in front via adjustment slider
	– Sit harness
	– Adjustable shoulder, leg and rear straps
	– DIN EN 361 + 1497
Rental No.:	SRM03846

STL-15239-2008

Harness Standard (Capital Safety)

Description:	– Catch eyelet positions in back and front sides
	– Chest strap
	– Spring-loaded adjuster for upper body
	– Adjustable by pulling downwards
	– Strap positioning
Rental No.:	SRM10626

Rental Star

D-587-2014

Fall Preventers

Shock-absorbing Lanyard 1.5 m Twin with Scaffold Hook (MAS)

Description:	– For vertical and horizontal application
	– Made from 27 mm strap belt
	– Impact force reduction below 600 kg
	– DIN EN 354 + 355
Rental No.:	SRM04958

Shock-absorbing Lanyard 2 m with Small Scaffold Hook (MAS)

Description:	– Reduction of impact forces that occur during a fall
	– Made from 12 mm polyamide rope
	– Impact force reduction below 600 kg
	– DIN EN 354 + 355
Rental No.:	SRM04010

Shock-absorbing Lanyard 1.5 m Twin with Scaffold Hook (Capital Safety)

Description:	– Lanyard with reliable fall protection
	– Flexible, resistant material
	– DIN EN 355
Rental No.:	SRM10743

Shock-absorbing Lanyard 2 m with Small Scaffold Hook(Capital Safety)

Description:	– Lanyard with fall impact absorber
	– Durable, resistant material
	– DIN EN 355
Rental No.:	SRM10628

D-588-2014

Shock-absorbing Lanyard 2 m Single with Small Scaffold Hook (Capital Safety)

Description:	– Lanyard with fall impact absorber
	– Fall safety with catch apparatus
	– Woven synthetic fibre with rope
Rental No.:	SRM11492

D-590-2014

Fall Arrester Viper, Rotating, 20 m (Capital Safety)

Description:	– Manual rope grip for use as part of a personal restraint or fall arrest device
	– Portable lanyard connection point on a rope lifeline
	– Includes fall impact absorber
	– Incl. 12.5 mm low stretch Kernmantle rope, 20 m length
	– Delivery: without box
Rental No.:	SRM10739

D-568-2014

Anchorage Systems

Anchorage System SETP 1.35 m with Karabiner (Bornack)

Description:	– Suitable for use at intermediate fixing points during lead climbing
	– Kevlar protective mantel to protect against cuts
	– Anti-twist, sewn-in steel karabiner; breaking load: 50 kN
	– Screw fastener
	– DIN EN 566, EN 354, EN 795 – sharp-edge resistant
Rental No.:	SRM04036

D-8801-2009

Anchorage System, 1 m (MAS)

Rental Star

Description:	– Made from 27 mm polyester belt strap
	– For workplace positioning
	– DIN EN 354 + EN 795, Class B
Rental No.:	SRM04012
Order No.:	660001

STL-15258-2008

Anchorage System, 2 m (MAS)

Description:	– Made from 27 mm polyester belt strap
	– For workplace positioning
	– DIN EN 354 + EN 795, Class B
Rental No.:	SRM04013
Order No.:	660002

STL-15258-2008

Anchorage System, 1 m (Capital Safety)

Description:	– Sling made from galvanised steel
	– 6 mm diameter
	– Length 1 m
	– 10 kN steel rope sling
Rental No.:	SRM10815

D-613-2014

Fall Protection Accessories

Solid Tie Bar Adjustable (Capital Safety)

Fall safety equipment

22 kN nominal load

Rental No.: SRM09352

Work Seat (Capital Safety)

Wooden-chair with anti-tripping rubber cover

Rental No.: SRM09353

Anchor System Greif-Fix, Diameter 100 (Bornack)

High stability

Suitable for scaffolding

One-hand operation

Rental No.: SRM09482

Anchor System Greif-Fix, Diameter 140 (Bornack)

High stability

Suitable for scaffolding

One-hand operation

Rental No.: SRM09483

D-Karabiner Stainless Steel 22kN

Handy rustproof stainless steel karabiner

Rental No.: SRM04009

Karabiner 22 kN (Capital Safety)

Large opening 33 mm

Quick and easy to open with one hand

Rental No.: SRM10204

Tripod Pulley (Capital Safety)

Upper deflection roller unit for use with Advanced™ UCT tripods

Rental No.: SRM10543

Console for Fall Arrrester Device (Capital Safety)

Winch/fall safety equipment assembly holder with adapter

Simple attachment with locking pin

Rental No.: SRM10630

VENTILATION SYSTEMS

Sometimes, ventilation is required before work begins, to displace possibly existing toxic gases and vapours or to offset an oxygen deficiency. We supply you with compressed air-operated and explosion-proof Venturi systems made of stainless steel. For high-performance systems and firefighting, electric variants are an option – also available as Ex-versions.

Electrically Operated Ventilation Systems for Non-Hazardous Areas

Airclean Axial Fan
6000 Power

Description:	– For aeration and ventilation of confined containers, spaces, storage tanks or process columns
	– Not approved for explosion-hazard areas
	– Performance: 6,000 cubic meters per hour
	– 230 V and 50 HZ/10 A motor
	– Dimensions: L × W × D: 210 × 510 × 510 mm
	– Weight: 12.5 kg
Rental No.:	SRM03811

STL-15278-2008

Airclean Axial Fan
7000 Power

Description:	– For aeration and ventilation of confined containers, spaces, storage tanks or process columns
	– Not approved for explosion-hazard areas
	– Performance: 7,000 cubic meters per hour
	– 230 V and 50 HZ/10 A motor
	– Dimensions: L × W × D: 240 × 620 × 620 mm
	– Weight: 15 kg
Rental No.:	SRM03995

STL-15278-2008

Electrically Operated Ventilation Systems for Hazardous Areas

DR AirMover 4000
DN 300 Power

Description:	– Explosion-proof fan with carry handle
	– For aeration and ventilation of confined containers, spaces, storage tanks or process columns
	– Approved for use in explosion-hazard areas
	– Dimensions: H × W × D: 410 × 380 × 380 mm
	– IEC 309 plug
	– Ex II G EEx de II B T 6
	– Weight: 18 kg
Rental No.:	SRM03997

DR AirMover 6000
DN 400 Power

Description:	– Explosion-proof fan with carry handle
	– For aeration and ventilation of confined containers, spaces, storage tanks or process columns
	– Approved for use in explosion-hazard areas
	– Dimensions: H × W × D: 480 × 480 × 300 mm
	– IEC 309 plug
	– Ex II G EEx de II B T 6
	– Weight: 24 kg
Rental No.:	SRM03999

DR AirMover RAMFAN 1400
DN 260 Ex

Description:	– Portable, explosion-proof multipurpose blower
	– Suitable for use in a range of harsh conditions
	– Antistatic casing for hazardous conditions
	– Durable double-walled casing
	– Weather-proof, chemical- and impact-resistant
	– Extremely compact and lightweight
	– Dimensions: H × W × D: 360 × 320 × 360 mm
	– Weight: 10 kg
Rental No.:	SRM10712

Compressed Air Operated Ventilation Systems for Hazardous Areas

DR AirMover 2500 DN 100 Venturi

Description:	– For aeration and ventilation of spaces, storage tanks, process columns
	– Air consumption: 99 m³/h
	– Flow rate: 2,446 m³/h
	– Dimensions: L × W: 840 × 200 mm
	– Flange API 3 (6.56 BC)
	– (ATEX 95) Ex II
Rental No.:	SRM03712

DR AirMover 4000 DN 300 Venturi

Description:	– For aeration and ventilation of spaces, storage tanks, process columns
	– Air consumption: 315 m³/h
	– Suction volume: 4,983 m³/h
	– Blower volume: 5,299 m³/h
	– Dimensions: L × D: 500 × 300 mm
	– BSPP: 1" connection
	– (ATEX 95) Ex II
Rental No.:	SRM03710

Ventilation System Accessories

DR AirMover Antist. Elect. Hose for Air Transport 7600 × DN 125

Spiral hose made from reinforced PVC-polyester mesh

Antistatic and flame retardant

Rental No.:   SRM03752

DR AirMover Air Tranport Tube 7600 × DN 400

Spiral hose made from reinforced PVC-polyester mesh

Antistatic and flame retardant

Rental No.:   SRM04000

DR AirMover Antistatic Hose for Air Transport with Quick Release 7600 × DN 303

Spiral hose made from reinforced PVC-polyester mesh

Antistatic and flame retardant

With quick-release coupling

Rental No.:   SRM08342

DR AirMover Compressed Air Supply Hose, 20 m 3/4"

20 m (3/4") pressure supply hose for feeding compressed air-driven fans

Rental No.:   SRM03704

Dräger Adapter EX-Connector/Socket

For use with Dräger GDS 2008 (europlug/Schuko)

Rental No.:   SRM06601

Quick Coupling Drum 7600 × 260

Rental No.:   SRM10713

FIRE PROTECTION

Hot work must be carried out safely. Effective prevention includes, among other things, ultra-heat-resistant welding mats to protect against sparks. In the event of a worst-case scenario, portable fire extinguishers with the appropriate fire classification or portable pumps with suitable hoses should always be nearby. We also stock matching accessories such as radiant tubes and collection items for you. And in the event of particularly high risk, we even deliver a firefighting vehicle to your front door, if needed.

2 kg CO$_2$ Fire Extinguisher

Description:	– Fire class B (C)
	– Permanent pressurized
	– Combined handle and trigger
	– Temperature range: -30°C to +60°C
	– Approval: EN 3
Rental No.:	SRM03932

STL-15286-2008

5 kg CO$_2$ Fire Extinguisher

Description:	– Fire class B (C)
	– Permanent pressurized
	– Combined handle and trigger
	– Temperature range: -30°C to +60°C
	– Approval: EN 3
Rental No.:	SRM03933

STL-15286-2008

6 kg Powder Fire Extinguisher

Description:	– Fire class ABC
	– Integrated compressed air cylinder
	– Combined carrying and impact trigger fitting
	– Temperature range: -30°C° to +60°C
	– Approval: EN 3
Rental No.:	SRM03929

STL-15285-2008

12 kg Powder Fire Extinguisher

Description:	– Fire class ABC
	– Integrated compressed air cylinder
	– Combined carrying and impact trigger fitting
	– Temperature range: -30°C to +60°C
	– Approval: EN 3
Rental No.:	SRM03931

9 kg Water Fire Extinguisher

Description:	– Fire class A
	– Inboard compressed gas cylinder
	– Handle valve, hose and extinguishing nozzle
Rental No.:	SRM07679

Water Hand-Pumped Extinguisher 10 L

Description:	– Lid with easy-to-use clasp and carrying handle
	– Double-action pump with 3/4" thread connection and 1 m rubber hose (1/2") with mouthpiece
Rental No.:	SRM04606

STL-15285-2008

Water-Bearing Fittings

Connection Piece BB-A

Description:	– 2 × B-hose on A-piece
	– With pendulum non-return valve
	– Dimensions (L × W × H): approx. 265 × 240 × 182 mm
	– Weight: 3.3 kg
Rental No.:	SRM04629

D-574-2014

Distributor B-CBC

Description:	– With B/CBC valve
	– Transition piece B/C, with chain
	– Dimensions (L × W × H): approx. 360 × 400 × 260 mm
	– Weight: 5.9 kg
Rental No.:	SRM04627

D-575-2014

Adapter B-C

Description:	– From sizes B/C
	– Sealing rings made from nitrile rubber
	– Oil- and petrol-resistant
	– Weight: 0.62 kg
Rental No.:	SRM06043

D-576-2014

Adapter C-D

Description:	– From sizes C/D
	– Sealing rings made from nitrile rubber
	– Oil- and petrol-resistant
	– Weight: 0.32 kg
Rental No.:	SRM04630

D-577-2014

Pressure Relief Valve

Description:	– B couplings for water inlet/outlet and B fixed coupling for drainage
	– Lighted manometer (0-25 bar),
	– Target value adjustment ring (adjustment range 2-16 bar)
	– Dimensions (L × W × H): approx. 225 × 200 × 195 mm
	– Weight: 5.25 kg
Rental No.:	SRM06205

D-578-2014

Multipurpose Branchpipe C-Connection

Description:	– Multipurpose branch pipe CM VSP
	– DIN EN 15182-3, PN 16, Storz C
	– Made completely of lightweight metal
	– With full jet lock
	– Not suitable for indoor use
	– Dimensions (W × H × D): approx. 450 × 98 × 165 mm
Rental No.:	SRM09070

D-579-2014

Branchpipe D-Connection for Water Hand-Pumped Extinguisher

Description:	– 3.5 mm borehole with D fixed coupling
	– Made from lightweight metal
	– Length: 120 mm
	– Weight: 0.15 kg
Rental No.:	SRM06206

D-604-2014

Pipe Sealing Bag 10/20 FS, Vetter

Description:	– For sealing pipes and ducts or redirecting/pumping off extinguishing water
	– Pipe diameters 10-20 cm
	– Total length: 55.5 cm
	– Weight: 0.9 kg
Rental No.:	SRM09071

D-602-2014

Pipe Sealing Bag 20/40 FS, Vetter

Description:	– For sealing pipes and ducts or redirecting/pumping off extinguishing water
	– Pipe diameters 20-40 cm
	– Total length: 57 cm
	– Weight: 3.1 kg
Rental No.:	SRM09072

D-603-2014

Fire Hoses

B-Hose 20 m, Silberfuchs K2L, B75

Description:	– Polyester mesh
	– Working pressure: 16 bar
	– Test pressure: 25 bar
	– Bursting pressure: above 60 bar
	– DIN 14811
Rental No.:	SRM05953

D-3085-2011

C-Hose 15 m, Silberfuchs K2L, C42

Description:	– Polyester mesh
	– Working pressure: 16 bar
	– Test pressure: 25 bar
	– Bursting pressure: above 60 bar
	– DIN 14811
Rental No.:	SRM03729

COMMUNICATION/ LIGHTING/ENERGY

Seamless communication at construction sites and industrial facilities is essential for occupational safety. Of course, adequate technical equipment is a must here. This calls for low-disturbance radio units and mobile phones with high call quality that are also ATEX-certified. For work in conductive areas, only electric devices may be used that comply with extra-low voltage protection. That is something our protective isolating transformers and lighting solutions provide.

Mobile Radio Systems

Radio Device GP380 ATEX UHF (Motorola)

Description:	– Private mobile radio system with transmitter station (installation required)
	– Durable design with intuitive operation
	– Operating life up to 11 hours
	– 255 channels
	– 5-tone signalling possible, incl. call alarm tone with gradual volume increase
	– IP54 safety standard
Note:	For use, please order the necessary accessories, such as battery, separately.
Rental No.:	SRM03803

VEHICLES/ CONSTRUCTION SITE EQUIPMENT

Whether by bike, lift truck or pushcart: Our rental transport solutions help you move the needed material to the right place. And your sensitive equipment is securely packed in our transport boxes. Safety zones can be assigned with the help of traffic cones, barrier beams and manhole guards. If additional infrastructure is needed at the time of your project, you will find our construction site containers suitable. You can order them as personnel, sanitation or storage containers.

Bicycles

Industrial Bicycle

Description:
– A range of models available, from roadster to mountain bike
– Available with/without light, with/without luggage rack
– Meets all current safety regulations
– Durable tyres
– Available in standard frame heights
– For getting around the area quickly

Rental No.: Diverse

STL-15315-2008

Industrial Bicycle with Simple Porter

Description:
– For getting around the area quickly
– Available with or without light
– Porter at the rear
– AL 6061 aluminium alloy
– 50 cm frame height
– Durable reflex tyres

Rental No.: SRM08774

MEDICAL AND EMERGENCY MEDICAL TECHNOLOGY

To be prepared for any contingency, everything should always be close at hand: from the first-aid kit for up to 20 people to rescue stretchers and mobile emergency showers. This allows on-site teams to react quickly following an accident, and initiate first-aid even before rescue teams arrive on the scene.

Medical and Emergency Medical Technology

First Aid Kit, for 5 Injured, DIN 13157

Description:	– ABS plastic, impact- and break-resistant
	– For care of up to five injured persons
	– Contents acc. DIN 13157
	– Optional wall mount
Rental No.:	SRM04017

D-567-2014

First Aid Kit, for 20 Injured, DIN 13169

Description:	– ABS plastic, impact- and break-resistant
	– For care of up to 20 injured persons
	– Contents acc. DIN 13157
	– Optional wall mount
Rental No.:	SRM04016

D-566-2014

Stretcher

Description:	– For transporting ill or injured persons
	– Upholstery made from coated synthetic fibre: low maintenance and disinfectable
	– With insertable carry handles
	– Patient safety strap with easy-to-use buckles
Rental No.:	SRM04670

D-581-2014

Emergency Safety Shower

| Description:	– Tank volume: 1,200 L
	– Electrical connection: 230 V
	– Dimensions: D × W × H: 148 × 132 × 352.5 cm
	– Carry-frame made from hot-dip galvanised steel
Rental No.:	SRM05201
